BLOOMINGGROVE SET FOR GALA DAY

Morrow County Village Hopes To Entertain 3 000 Visitors at Centennial

BY BOB BYRD
Marion Star Staff Writer

BLOOMINGGROVE O Aug 6—Memories of a native son who became president of the United States will be recalled in this northern Morrow county community of 75 residents when it hopes to entertain 3 000 persons in a homecoming Aug 21 that will mark the one hundredth anniversary of the founding of the village

The enthusiasm with which every resident of the village is entering into preparations for the centennial jubilee more than offsets the lack of manpower In shaping a busy one-day program to mark the rounding out of the community s first century of existence

For Bloominggrove residents it [illegible] will be the most auspicious event of many years For the general public invited to attend it will be an opportunity to learn about former President Harding s native community and his ancestors who were pioneer settlers of the vicinity fully 15 years before the village was laid out on March 3 1835

The centennial celebration was in order last March 3 but was delayed to this month for better weather conditions

Want Harding Highway

Two topics are uppermost in the conversation of residents of this farming community located five miles southeast of Galion 14 miles southwest of Mansfield and 10

Photographs made at Bloominggrove which will conduct a centennial celebration Aug 21 are shown above In upper left is the house in which the late President Harding was born At upper right is a view of the community [illegible] store and part of the residential district Below is Loren O Harding second cousin of the late President and chairman of celebration arrangements with the cradle in which the late President slept when an infant—Harding birthplace photo courtesy of C E Coomer

Plans For Event Recall History of Village Settled by Harding s Ancestors

miles northeast of Mt Gilead One is the centennial celebration in which virtually every active resident will have a part and the other is the possibility of getting the Harding highway rerouted to run past the place where the late President Harding was born—a quarter of a mile east of the village

The celebration planned this month would have been quite a different affair had the late President Harding lived This assertion was made by Loren O Harding second cousin of the late president and general chairman in charge of centennial celebration arrangements as he disclosed that the late President Harding planned to return to Bloominggrove upon his retirement from the presidency

Loren Harding and a number of Marion friends of the late President recall that President Harding at the time of his death had definite plans made to build a bungalow on the homestead farm at Bloominggrove construct a private golf course nearby and retire to his native village to spend his last years writing

The golf course is believed to have been planned for an 80-acre tract on which the late President

DRIVE FOR CITY HALL OPENED

Publicity Campaign For Bond Issue Is Started This Morning.

MEETING IS PLANNED

Sample Ballots, Questions and Answers To Be Distributed by Civic Group Workers

An extensive publicity campaign conducted by Marion civic organizations to aid in promoting the proposed $200 750 city hall bond issue was under way today with the members of five groups in the field on a house to house canvass to circulate publicity literature and ask voters to support the bond issue

The Marion voiture of the 40 et 8 at a meeting last night voted to assist in familiarizing voters with the issue by furnishing a decorated truck to tour the streets of the city Friday and Monday

A meeting of all workers and committees is scheduled to be held Wednesday night at 7 30 o clock in the Marion county common pleas courtroom Additional instructions will be given workers New publicity literature and sample ballots will be available at this session Vincent Wagner who makes his home in Marion and is connected with the Glen Haven Memorial association at Springfield O will speak

The 40 et 8 decision to join with other organizations in the publicity campaign came after members heard brief talks by Charles Howard Earl Ruhlman and Chris Turoff

Sample marked ballots favoring the bond issue and a group of 12 questions and answers concerning the proposed city hall were being circulated in the house-to-house canvass today The question concerned the cost of the structure 45 per cent of which would be an outright grant from the PWA and the remaining 55 per cent representing the bond issue proportion of cost to go to labor and material details of the auditorium which would be a part of the building and other items of interest in connection with the project.

The city hall bond issue along with the proposed sewer construction bond issue will appear on a ballot to be given voters when they enter the polls at the Aug 13 primary

MASSACRES TO BE BARRED

Warriors Who Mutilated Italians After Battle of Adua Want To Serve

By The Associated Press

ADDIS ABABA Aug 6—Emperor Haile Selassie directed personally today a new phase of Ethiopia s preparations for possible war with Italy—the ceremonial launching of the empire s Red Cross.

An imperial tent lavishly decorated in oriental style was erected in the court of the building especially leased as the new Red Cross home A dias was built for the king of kings

The first meeting was called today to press the campaign for Red Cross subscriptions elect a board of directors and complete organization of the body Foreign Minister Bellaten Gueta Herouy was named president by the emperor

No Barbaric Assaults

From the humanitarian viewpoint Ethiopia s adherence to the Red Cross was understood to mean that there would be no repetition of the sequel to the crushing of an Italian expedition at Adua 40 years ago when many Italian prisoners allegedly were mutilated

Confronting the soft spoken olive-skinned emperor was the insistent request from warriors of the Adua campaign that they be permitted to fight once more for the empire

These Ethiopian heroes have assembled in large gatherings before the statue of former Emperor Menelik to offer their services in Haile Selassie s army Boasting of their exploits they have exhorted the nation to repeat its past triumphs

The Menelik statue stands before Saint George cathedral built by the late warrior emperor whose systematic conquests united the modern Ethiopia

Commemorates Battle

The cathedral honoring the patron saint of Ethiopia commemorates the battle of Adua, where Saint George is reported to have appeared in person to give victory to Menelik s army Another Ethiopian legend says Saint George protects the nation s frontiers by circling them thrice daily

The foreign office reiterated its determination not to accept limitations of its sovereignty or alienation of its territory asserting it knew nothing of any Ethiopian offer of territorial and economic concessions to Italy

(London reports said that a League of Nations protectorate for Ethiopia including some recognition of Italian demands appeared likely to be the major subject for

Candidates Start Work As Primary Draws Near

Unusually Slow Campaign Speeds Up as Aug 13 Nears, Republicans Plan Write-in Nomination

A week from today Marion voters will go to the polls to nominate party candidates for city offices and to vote on two bond issues of citywide interest

It appeared today that this year s pre primary activity will go down in election records as a one week campaign Political observers have regarded the campaign to date as having been unusually quiet but there was evidence today that enough work has been planned for the final week to make Marion residents election minded by next Tuesday

Hundreds of members of Marion civic organizations today had their campaign for support of the proposed city building and public auditorium bond issue well under way Their efforts are expected to bring many persons to the polls who ordinarily take no part in primary elections

The proposed issue would provide $200 750 as the city s share of the expense of constructing a $360,000 building the city hoping to get the remainder of the total from the federal government in the form of a PWA grant

Another bond issue to provide $88 000 of local funds for a proposed $160 000 PWA sewer project, is expected to heighten interest in the primary election

As the home stretch of the campaign was reached today sample ballots were being distributed indicating preference for certain Democratic candidates for city offices signed by the Democratic committee and Dr C J Altmaier chairman

Dr Altmaier today said he and the party s executive committee

Progressive's Attempt To Broaden Base of New Bill Only One of Many Changes Senate Plans

ROOSEVELT IS SILENT

Leaders Agree To Block Bonus Payment Moves and Other "Extraneous" Riders Now in Offing.

By The Associated Press

WASHINGTON Aug 6 — Sen LaFollette Progressive of Wisconsin had the support of some Democrats today as he made ready for a fight to write sweeping changes into the new tax bill in an effort to get more revenue from income tax payers

His announced attempt to broaden the base of the new higher income taxes was only one of several amendments confronting the bill in the senate after its passage through the house yesterday 282 to 96.

Meanwhile there was no sign from the White House today as to what it thought of the bill as a whole It was drafted in response to President Roosevelt s distribution of wealth message but the house approved some provisions that parted company with presidential ideas

Yield Not Certain

There was still a dispute as to how much the house bill would raise Some said $250 000 000 while Chairman Doughton Democrat of North Carolina of the house ways and means committee said $255-000 000 or $260 000 000

It may be two weeks some legislators figured before the senate acts on the bill The finance committee has several days of hearings ahead

A decision was reached by Democratic leaders to block efforts to attach bonus payment or other extraneous issues to the tax bill

At the same time they agreed to give bonus legislation preferred status at the next session of congress

Hope To Speed Recess

Expressing hope that this would speed adjournment Sen Robinson the majority leader said many bonus advocates felt a tax bill amendment would not develop the full strength that the proposal might muster if offered separately next year

Earlier Robert H Jackson internal revenue bureau counsel told a senate committee considering the tax bill that added revenue to go toward balancing the budget and paying the cost of fighting the depression would be contributed by the propertied class according to its ability to pay

He declared there had been a general conspiracy among the rich to evade taxes in the past

Uncertain About Changes

Robinson was not so certain about attempts to amend the bill to bring in more revenue for application toward a rapidly growing deficit and national debt

LaFollette said he would try to raise the revenue materially Whereas the house bill makes the higher surtax s apply only to income over

NAZIS WORRIED OVER OLYMPICS

Fear of Losing Games Because of Purge Seen Behind Foreign Press Attack.

By The Associated Press

BERLIN, Aug. 6—An authoritative source expressed the belief today that fear of losing the 1936 Olympic games because of the campaign against Jews and "political Catholicism" lay behind Nazi attempts to obstruct foreign correspondents.

Loss of the games at Berlin would come close to being a major setback for the Nazi regime, economically [illegible].

Millions of marks are being spent on preparations with officials counting on an influx of foreign money to stimulate declining business.

[illegible] Nazi quarters were convinced that there existed among foreign correspondents a scheme to have the International committee cancel the games.

Ousting Newspapermen

The ousting of some newspapermen and the influencing of those remaining against sending abroad reports of the attacks against Jews and "political Catholicism" were said authoritatively to be the method of Dr. Paul Joseph Goebbels, minister of propaganda, for dealing with the alleged plot.

Members of the Foreign Press association said they were mystified as to why government officials should believe charges of the existence of any plot.

Some foreign newspapermen have been giving free aid to the German Olympic committee, translating material for the foreign press and serving on various committees. The foreign press standing committee has been cooperating with Olympic game organizers.

Their Main Objective

The authoritative source said, however that the Olympics stand as the center of present Nazi objectives, and anything which appears to endanger their success is likely to suffer blows.

An anti-Semitic speech by Julius Streicher, a leader of the movement, was scheduled for the Berlin sportpalast this week. Reports of storm troops parades against Jews and Catholics entering politics reached Berlin from provincial towns.

Objections within the ranks of the Nazis resulted in the cancellation of a demonstration at Wuerzburg Sunday at which effigies of nuns and Jews were to be hanged. Instead, there was a parade in which a gallows was carried together with caricatures of monks and nuns.

An effort was being made to halt the sale of weapons to "state enemies." The ministry of justice ordered judges to find the men behind the scenes in all cases of misuse of arms.

Jewish Unions Must Merge

The new Nazi dictator of non-Aryan art, Hans Hinkel, took his first official step by ordering all Jewish cultural unions to merge before Aug. 31, into a "federation of Jewish cultural unions."

"Only local Jewish unions willing to work under the leadership of the new Berlin board" will be permitted to continue "cultural activity" after that date, he announced.

The decree did not apply to Jewish schools and religious activities.

Some quarters said Streicher himself aspired to the leadership of a new federal bureau to centralize and systematize all measures calculated to "solve" the Jewish problem.

CANDIDATES START DRIVE FOR BALLOTS

(Continued from Page One)

which he said authorized printing of the sample ballots, realized that participation of a party organization in a primary campaign is unusual but that the committee had acted in what it termed "the best interests of the Democratic voters of Marion."

The sample ballots indicate the party organization desires nomination of E. L. Hill for mayor in preference to renomination of Mayor C. A. Bolin and the nomination of Harry T. Bell, F. R. McDaniel and Carl G. Roecker as candidates for councilman-at-large in preference to Miss Barbara Bingham who two years ago was elected Marion's first woman member of city council. All of the other Democratic candidates are unopposed in the primary.

Distribution of campaign material by candidates and publication of political advertisements is scheduled to be started today or Wednesday. Except for the Democratic committee's action, it appears that the campaign will be operated on a basis of "every man for himself," political observers said.

Two Write-In Candidates

It has been announced that campaign will be made to have names of two men written on Republican ballots for the nomination for president of council. They are R. C. Snare, former city treasurer and now assistant cashier at the Marion County bank, and A. H. Marks of 231 Pearl street, an Erie railroad yard worker. Mr. Marks has announced his candidacy for the nomination as council president. Mr. Snare said a group of Republicans are seeking his nomination but said he will not make any personal campaign although he has agreed to accept the candidacy if nominated. Their nomination is being sought to take a place on the party ballot made vacant by the withdrawal of Stephen J. Hart, Marion barber, who originally filed *for the office and was without opposition* in the primary. Eight per cent of the party vote cast at the primary is required to nominate a write-in candidate.

discussion among England, France and Italy at Paris next week.)

Government ministers declined to comment on a report that a contract for arms had been concluded with Japan but one official hinted that Ethiopia was short of munitions and would entertain any offers.

Many sources indicated, however, a deep desire on the part of empire officials to avert war. Officials were hesitant to commit themselves in the present state of uncertainty.

A communique said the league's action in calling a council meeting Sept. 4 to inquire into the entire Italo-Ethiopian dispute "has fully satisfied the Ethiopian government, which has not ceased to demand this examination during the last eight months."

Mussolini Calls 75,000 More Men

By The Associated Press

ROME, Aug. 6—Premier Mussolini today called 75,000 more men to arms "as a consequence of heavy Ethiopian mobilizations."

Specifically, he ordered the mobilization of two regular army divions and a volunteer Fascist blackshirt division and created two replacement divisions.

The long-expected "communique No. 9" announced the new increase in Italy's fighting strength.

It stated the Assietta division of the regular army, commanded by Riccardi has been called.

The mobilization order brought the number of divisions already sent to east Africa or in training for service there to seven regular army and six Blackshirt militia.

Estimating the strength at an average of 15,000 men to a division, the order will bring Italy's white forces in Eritrea and Italian Somaliland to 195,000 men.

A check of southern embracation points indicates that almost *100,000* of these already have departed.

Two divisions of natives, raised in east Africa early this year, increased the regular territorial forces of 10,000 men.

Thus, it is estimated that 140,000 troops already are in line in the two colonies.

With the arrival of the new contingents in training, or about to start training in Italy, the total figure will be swelled to 235,000.

The team has a batting average of .306 and has won 23 out of 32 games played this season. The Marion squad includes many of the city's heaviest hitters and a large number of fielding stars.

Two of the foremost softball batteries of the city, Maynard Snyder, pitcher, and Joe Conroy, catcher, of the Silk Mill and Dale Schwaderer and Kenneth Gallant of the Gasco team, have been picked for action. Maurie Whitcum, Ohio university football, baseball and basketball [illegible] and Howard Jones of the [illegible] Shovel team have been named as utility pitchers.

mained uncertain as to whether he will drop his court fight against Marks. He said he still is of the opinion that no effort will be made to carry the case to the Ohio supreme court, but added he would reserve final decision until the 30-day period in which he may file an appeal has elapsed. The 30-day period began Aug. 3, the date of the appellate court's decision.

Friday, this week, will mark the first anniversary of the mayor's removal of Marks. The city civil service commission subsequently upheld the mayor. Marks carried the case to common pleas court where he won a decision early this year reinstating him as police chief. The appellate court, in a two-to-one decision Saturday, upheld the common pleas court decision.

GUFFEY COAL BILL APPEARS SNAGGED

Seven Democrats in House Committee Balk at Stabilization Plan.

By The Associated Press

WASHINGTON, Aug. 6—Despite President Roosevelt's personal insistence upon the measure, seven house ways and means committee Democrats today balked at the idea of approving the Guffey coal stabilization bill.

The Democrats present at the three hour session were reported to have voted 5 to 7 to report the bill to the house with recommendation that it pass.

At least six of the Republican committeemen, however, are known to oppose the measure, so a formal vote in the full committee, unless there were changes, would make the line-up 13 to 10 against the bill.

Rep. Jenkins of Ohio is the only committee Republican who has signified his intention of supporting the measure.

Chairman Doughton had called the Democrats to meet this morning for a decision and had arranged for the full committee to meet this afternoon.

When the morning session ended as it did, however, he called off the full committee meeting.

Emerging from the meeting, Doughton said there had been no change in the situation since yesterday.

"There is doubt as to what the full committee will do and when it will meet," he said.

Authoritative reports were that the Democrats had vigorously resisted any attempt to bind them all to support the bill. It would take a two-thirds majority to do that without unanimous consent, and both the two-thirds majority and the unanimous consent were lacking.

MRS. PUTNAM FAVORS AVIATION REGULATION

Wants Legislation To Coordinate All Systems of Transportation.

WASHINGTON, Aug. 6—Tousle-haired Amelia Earhart Putnam strode into a senate committee hearing today, crushed her brown felt hat on a table and expressed aproval of further federal regulation of aviation—with reservations.

A short time earlier, Mrs. Putnam had resigned her dollar-a-year job as a commerce department aeronautical expert.

Giving her views on a bill by Sen. McCarran, Democrat of Nevada, to place aviation largely under control of the interstate commerce commission, she told the committee,

"Railroads had 50 years to sow their wild oats before regulation was applied."

GERMAN GIVES UP SEEKING LICENSE

By The Associated Press

NEW YORK, Aug. 6—Paul W. Kress, the German alien who asked for a New York masseur's license and thus started a train of events that resulted in a diplomatic incident, doesn't want the license any more.

He announced last night that he is sailing Wednesday to take charge of his father's laundry business at Berga-Thuringer, Germany.

LA FOLLETTE GIRDS FOR TAX STRUGGLE

(Continued from Page One)

$50,000, it was understood LaFollette would increase them on income below that figure. He also was believed to be aiming at an increase in the normal rate of 4 per cent applying to all taxable income. The house bill leaves this unchanged.

In answer to "construction" charges, there also probably would be, under this plan, some reductions of the surtax boosts voted by the house for the very high brackets. LaFollette also may push for some cuts in the house inheritance levies.

LaFollette contended that all should bear the burden of increased cost of government and that by going into the lower brackets where the bulk of the taxpayers are and making the upper brackets conform to his schedule of increases more revenue would be obtained.

The senate finance committee was summoned to resume hearings on the bill today, with treasury experts on the stand.

As finally approved by the house, the measure would step up surtax levies on all incomes over $50,000, impose a new tax on inheritances, ranging as high as 75 per cent on that portion of an inheritance over $10,000,000; levy gift taxes amounting to about three-fourths of the inheritance taxes; apply a 13¼ per cent tax to net corporation incomes of $15,000 or less and 14¼ per cent on all $15,000, in lieu of the existing flat rate of 13¾ per cent; exempt up to 5 per cent of corporation net income contributed to charities; impose a graduated tax on "excess profits" of corporations.

OHIO'S WPA FUNDS WILL FLOW SHORTLY

Difficulties in $10,000,000 Program Cleared Up, Washington Reports.

By The Associated Press

COLUMBUS, O., Aug. 6—Fifty thousand jobless awaiting start of works progress administration projects hailed today word from Washington that money allotted to Ohio "will start flowing with in a few days."

WPA officials there said difficulties involving the state's $10,000,000 program had been cleared up "and Ohio can expect some action shortly." The delay, they said, resulted from a technical question raised by Comptroller General McCarl.

C. C. Stillman, federal administrator for Ohio, asserted the "dirt will fly" as soon as he receives the go ahead signal. President Roosevelt approved 1,380 projects for the state last week.

PENSION DISCONTENT CHARGES HELD FALSE

Group Denies Fomenting Trouble in Ohio Aid for Aged Organization.

By The Associated Press

COLUMBUS, O., Aug. 6—An officer of the American Association of Social Workers asserted today "there is no basis" for charges that the organization fomented discontent in Ohio's old age pension system.

"All that we ever sought," said Miss Elizabeth Long, secretary of the association, "was a higher standard for the personnel of the division and we have no connection with the present controversy."

Henry J. Berrodin, state administrator of the pension system, target of state-wide criticism, accused the organization of trying to create jobs for social workers by causing discontent over his methods.

Administrative officials in eight counties have revolted against Berrodin's policies. Several charged him with "playing politics" in making appointments to division offices.

"Some chapters may have protested the qualifications of some persons employed by the division, but we have maintained all along that the standards are too low," Miss Long added.

Berrodin asserted that social workers conducted a study of the division for the Ohio government survey committee. Survey officials denied this. The report on the division has not been made.

Members of the Jefferson county pension board, who planned to resign in protest against an appointment made by Berrodin over their recommendations, reconsidered their decision yesterday.

Mrs. Fred Bates, secretary of the board, said it would "stick and see the fight with him to the finish."

ROOSEVELT OKAYS $2,590,327 GRANTS

By The Associated Press

WASHINGTON, Aug. 6—President Roosevelt today approved grants totalling $2,590,327 for 11 non-federal construction projects in Colorado, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Montana, Ohio, Texas and Virginia.

The grants represented 45 per cent of the cost of the projects.

The remaining $3,165,959 would be financed by loans, making the total of construction $5,756,286.

The projects were recommended to the President by the committee on allotments.

PIGEON RESTS

Carrier Bird Alights in Theater Projection Room.

A carrier pigeon believed to have lost its way or become too fatigued to continue its journey sought refuge in the projection booth at the State theater last night. The bird was taken home by William Black of 459 Park boulevard, operator at the theater, where it will be cared for until claimed.

The bird is mottled gray and white in color and the inscription, "Col-1511, A U 35" is on a metal band attached to one of its legs.

MILLER INDORSED BY CLEVELANDERS

By The Associated Press

CLEVELAND, O., Aug. 6—Despite an indication that Congressman Martin L. Sweeney may be a Democratic candidate for the mayoral nomination here in the coming primary, the party's Cuyahoga county executive committee gave its indorsement last night to the candidacy of former Mayor Ray T. Miller.

Sweeney sent a telegram to the committee which said, "I reserve the right with other members of the party to be a candidate for mayor."

Only one dissenting vote was cast to the indorsement of Miller. It came from County Commissioner Joseph F. Gorman, himself a candidate for the city's chief office.

WASHINGTON POLICE PUT ON HOPSON TRAIL

His Testimony Wanted by Two Committees Probing Utilities Lobby.

By The Associated Press

WASHINGTON, Aug. 6—The aid of Washington police was sought today by the house rules committee in its effort to locate H. C. Hopson, dominant figure in the Associated Gas & Electric system, whose testimony is wanted by two *congressional investigating* committees.

Impatient at delay in locating the long-sought witness wanted for questioning in the utility lobby investigation, the house committee gave a description of him to the police department.

It took this action after a fruitless search was made at the Shoreham hotel for Hopson by the house and senate committees.

The search was started when the house committee received testimony from B. B. Robinson, Associated's Washington representative, that he had talked with Hopson at the hotel last night.

Herbert A. Bloomquist, chief senate investigator, and C. H. Tavenner, house committee investigator, arrived at the hotel with a subpoena.

Hopson, however, apparently had left. Hotel officials said he was not registered as a guest and had not been.

Pressed for more information as to Hopson's location this morning, Robinson said he did not know and:

"If you want to know what I think, I don't think it makes any difference."

Robinson said he went to the hotel to "have some fun as I had a few minutes with nothing else to do."

He added he saw Hopson in a corridor and talked with him about five minutes.

STRAIGHT SHOOTER FRUSTRATES HOLDUP

Innocent Bystander Killed in Fray During Which Three Robbers Are Caught.

CLEVELAND, O., Aug. 6—Fast and straight shooting by a police sergeant with 25 marksmanship citations accounted today in a large part for the frustration of an attempted $20,000 jewelry store holdup and the capture of three robbers, all ex-convicts.

An innocent bystander, Carl Palange, 65, was wounded fatally in the gun fight that developed when the marksman, Police Sergeant Michael J. Blackwell and two other officers trapped the holdup men in the store.

The battle occurred in the Checel Jewelry Co. at closing time late yesterday.

Just as one of the robbers told Charles Checel, "This is a hold-up," Checel's brother Leonard, the proprietor, set off a burglar alarm from a rear room.

Not realizing the alarm had been given, the robbers forced the brothers and an employe to turn over to them several trays of valuable gems.

Three minutes later, Leonard Checel said, Detectives Thomas Murphy and Martin J. McFadden arrived. One of the robbers exchanged shots with Murphy. Then Blackwell and Detective Sergeant Harvey Weitzel arrived, and the shooting became a continuous roar.

"Murder. Police!" shouted Palange, at his post as an elevator operator in the building. The words were hardly uttered when he fell mortally wounded, struck police said, by one of the robbers bullets.

Another bullet splintered glass beside Blackwell, cutting him on the nose.

But two of Blackwell's shots struck one of the robbers, who later was booked under the name of Harry L. Block, in the cheek and leg. "I give up," the robber shouted.

Palange died within a few minutes. Block was taken to a hospital where attendants said he would recover. The other two arrested were booked at the jail as Hyman Schackman, 23, and Eli Levinson 24.

SECOND HURRICANE HITS SOUTHERN CHINA

Officials Fear Terrific Loss of Life; All Communications Destroyed.

By The Associated Press

AMOY, China, Aug. 6—Southern Fukien province today was struck by a second typhoon which ripped inland from the sea, devastating a huge area.

Coming close behind yesterday's hurricane, the new storm caused officials to fear a terrific loss of life. The typhoon was regarded as the worst in a quarter of a century.

The brunt of today's storm appeared to hit the coast 60 miles south of here.

All communications were destroyed, thereby shrouding the details of the death and destruction believed to have occurred.

The heavy winds on the fringe of the typhoon struck Amoy and wrecked fishing fleets close by.

Fragmentary dispatches from Chuanchow stated yesterday's disaster there was the worst in the history of that area, eclipsing the great storm of 1905 when typhonic winds and rains similar to that of yesterday laid the whole area waste.

FERRIS SAYS POLICE USED THIRD DEGREE

Claims He Confessed Slaying Dickinson Because They Beat Him.

By The Associated Press

DETROIT, Aug. 6—A crowd-packed courtroom heard [illegible] Lee Ferris, under slashing cross-examination, shout a defiant charge today that he confessed to the slaying of Howard Carter Dickinson only because he was beaten by police.

"Did I beat you?" Prosecutor Duncan C. McCrea asked sarcastically.

"You were present," the [illegible]-year-old hoodlum replied [illegible]

The defendant, on trial with two former burlesque dancers for the New York attorney's slaying, [illegible] he had said yesterday that Dickinson committed suicide [illegible] Ferris' car in Rouge park [illegible] night of June 26.

"It was either suicide or accidental" he testified.

"The gun went off in his hand [illegible] I took hold of him and his [illegible] vest came off. They must have fallen off when I took his feet off the running board."

On direct examination Monday, Ferris had said he, Dickinson, [illegible] ence and Loretta Jackson and [illegible] Miller started for a resort west of Detroit on the ride which ended in Dickinson's death.

"Then what were you doing on a dirt road in Rouge park?" McCrea demanded today.

"I don't know," Ferris mumbled.

Striding toward the defendant, McCrea shouted:

"You know you went there to kill Dickinson, and you would admit it to the jury if you told the truth, wouldn't you?"

Ferris did not answer.

FISHERMAN DROWNS SOUTH OF DELAWARE

Special to The Star

DELAWARE, O., Aug. 6—A Columbus man's fishing trip in southern Delaware county yesterday to celebrate his birthday anniversary ended in his death by drowning.

He was Edward Smith, Columbus vegetable peddler, who would have been 62 today. He and his wife parked their truck Sunday at East Twin Lake between the Girls' Industrial school and O'Shaughnessy dam, west of the Scioto river. Smith got up early Monday to go fishing. A short time later his wife found his pole and cap floating in the lake. The body was recovered nearby. It is believed he slipped and fell into the lake.

Your Health

BY DR. R. S. COPELAND

Myositis.

SOME PERSONS are very susceptible to muscle inflammation. This condition is medically termed "myositis." If you have ever suffered from an inflamed muscle you need not be told of the extreme discomfort and pain it can produce.

The inflammation follows undue exposure to cold, draught, wet or dampness. Persons afflicted with gout or rheumatic disorders are especially liable to myositis. It is often confused with rheumatism, neuralgia or other similar ailments.

And muscle of the body may be involved. As a rule the sufferer is awakened from sleep with discomfort or severe pain in the affected muscle.

In the mild form of myositis the pain is only moderate in degree and subsides within a short time. Unfortunately, many cases are not of this type.

Relief is best obtained by gently massaging the inflamed muscle. When the rubbing is commenced pain is slightly increased but relief soon follows. The massage should be given only twice a day.

An old-fashioned but beneficial form of treatment is to iron the painful muscle, using a flat-iron for this purpose. First place a thick piece of flannel or muslin over the inflamed muscle and then carefully iron the parts. Extreme care must be taken to prevent burning the skin.

Painting the surface over the sore muscle with equal parts of guaicol and glycerine will sometimes serve to relieve severe pain. After the painting cover the skin with cotton or flannel. There are many other forms of treatment, but if you are subject to repeated attacks of myositis I advise you to consult with your doctor.

Susceptibility to this disturbance is often traced to the harboring of germs. These may be traced to a focal infection. For example, diseased teeth, tonsils, nasal sinuses or adenoids may contribute to the frequency and severity of these attacks.

Answers to Health Queries

A.—This condition is probably due to varicose veins, brought on by some undue exertion or strain. For full particulars send a self-addressed, stamped envelope and repeat your question.

M.L.T. Q.—What foods will help to make the teeth strong and white?

A.—A well-balanced diet should be of general benefit and advantage under the circumstances. For full particulars send a stamped, self-addressed envelope and repeat your question.

BLOOMINGGROVE TO CELEBRATE AUG. 21

(Continued from Page One)

and his parents lived for about two years. Incidentally, this place has been mistaken by thousands of persons to be Harding's birthplace—many pictures have been shown referring to a small house, still standing on this tract, as the President's birthplace.

Birthplace Torn Down

"I don't know how that story got out," Loren O. Harding said. "Warren was born in a little house that used to stand in what is now the [illegible] of the [illegible] residence structure on the old Harding farm just east of the schoolhouse. He was still a baby when his parents moved to the other house which some people still think is his birthplace. The house in which he was born was torn down a number of years ago.

The arrangements chairman shook his head as he remarked that President Harding's presence, had he lived, would have drawn visitors to the celebration from all over the nation.

As it is, the whole community, with all the help it can muster from the outside, is doing its best to make the celebration a memorable event.

The program will be opened at 10 a. m. with a parade. An hour later music will be furnished by the Williamsport band. A flag will be presented to the community by the Daughters of Union Veterans of Galion. After invocation, there will be a dedication of the memorial bronze marker with Dr. J. T. Marshman of Ohio Wesleyan university as speaker.

Following a basket picnic at noon, Rev. Harry G. Finney, D. D., native of Bloominggrove and now a Presbyterian church worker in Arkansas, will speak. Mr. and Mrs. Charles Hinckley will play an organ recital at the Seventh Day Adventist church from 6 to 7 p. m. From 7 to 8 p. m. the Crestline band will play.

One of the highlights will be a historical pageant at night in which some of the outstanding historical events of the community will be portrayed. This will be followed by the selection and crowning of a queen for the centennial celebration and sale of the historical quilt being made by Bloominggrove women.

The pageant will show how Mordecia Harding, a great-uncle of the late President, came to the Bloominggrove vicinity from Pennsylvania in 1815 and built a house two miles north of what is now the village. His house was the first "permanent" residence in the vicinity, but it was destined to be abandoned a year later. The original settler returned to Pennsylvania in 1819 because of Indian uprisings east of Mansfield.

Returns With Family

In 1820, Mordecia Harding returned to the house he had built, this time bringing with him his father and seven brothers and five sisters, he being one of a family of 17 children. The father was Amos Harding.

The pageant also will show how Johnny Appleseed, a famous character in pioneer days, went among the early settlements and even among the Indians at times when they were hostile to the whites, planting apple and other fruit trees. Loren O. Harding said Johnny Appleseed used to make the old Harding property one of his stopping places. He added that the community history records his visits there as early as 1824.

Another event to be recorded in the pageant is the enlistment in the Civil war of 21 young men who answered Lincoln's first call for soldiers.

Many of these events also will be pictured on an historical quilt being made by Bloominggrove women. The quilt will be sold at the centennial celebration to help defray expenses.

A number of members of the original Harding family stayed in Bloominggrove only a short time, moving westward to LaPort, Ind., others going to Buchanan, Mich.

However, the settlement for some time was known as Harding settlement. It was Solomon Harding, also a great uncle of the late President, who came to Bloominggrove in 1824 and acquired the property on which the village is located. The land was laid out in 1835 by John Steward. U. G. Baker became the village's first postmaster 10 years later.

Eight Generations

The Appleman family was the second large group to settle in the community. Eight generations of the Harding and Appleman families have lived there, Loren Harding, historian for the Harding family, said. He said he, as historian, suggested two years ago at the Harding family reunion, that preparations be started for the centennial celebration. Both the Harding and Appleman family reunions, each of which draw hundreds to the village each year, are to be held in connection with the celebration.

To make the celebration of greater interest to the general public, Bloominggrove residents plan to put on display many articles connected with the early years of the village, including some of the pieces of furniture from the house in which Harding was born. Loren Harding recently disclosed he owns a roughly-finished cradle in which the late President Harding slept at the house where he was born and lived for approximately one year. The late president's parents moved to Marion county when Warren G. Harding was about three years old, Loren Harding said.

The late President Harding restored to the family's name the farm that includes the site of his birthplace and which originally included the site of the present school. This farm contains 181 acres. A nearby tract, on which the late president and his parents resided before leaving the community, also was acquired by him. He left the property to his nephews with instructions to keep it in the name of the Harding family. The owners are Dr. George Tryon Harding III and Charles Harding of Worthington and Dr. Warren Harding of Australia.

The community has two churches, the Methodist, established in about 1840, and the Seventh Day Adventists, established about 1879, according to Loren O. Harding. The village has one general store.

Among the older residents of the community to take part in centennial celebration activities are W. D. Richardson and William Snyder, both former postmasters, and Perry Lindley and Mrs. Grace Wolff, believed to be the two oldest residents in point of years spent in the village.

He suffered permanent injuries to his right ankle, he contends. Hardin county commissioners knew that the benches were unsafe and were negligent in failing to repair them or nail them solidly so they could not fall, Overly asserted.

When the box office traffic opened today Promoter Joe Foley announced $110 000 was already in the strong box He predicted another $100 000 would come rolling in before the walloping Chicagoan and the Detroit Negro start throwing punches at each other's chin

If Promoter Foley is right Louis just 21 years old will earn $60 000 with his fists tomorrow night Louis who quit work in a Detroit automobile plant a year ago to receive $50 for his first fight has been guaranteed 30 per cent of the receipts with 20 per cent going to the Kingfish

While the fans were storming the box offices the calmest were the two fighters themselves Louis weighing 194 pounds was resting at the summer home of one of his managers Julian Black near St Joseph Mich He will remain there until tomorrow noon

Levinsky planned to leave his camp at Round Lake Ill late this afternoon Levinsky weighing 198 pounds is satisfied with his condition and believes he will win

Leaping Lena Levy the Kingfish's sister and one of his advisers expressed confidence in her big brother's ability to conquer the young Detroit Negro seeking his 24th consecutive victory since becoming a professional

The King is ready He's in shape Leaping Lena yelled He ain't going to make any mistakes this time like he did when he fought Baer and got belted out while waving to me that everything was O K

Complete confidence of victory prevails in Louis quarters

One thousand policemen one of the largest details ever assigned to a Chicago sporting event will be on duty when Louis and the Kingfish crawl through the ropes

There will be no broadcast with one exception This will be a special telephone wire from the ringside to the Hines Memorial hospital near Chicago where 1 700 World war veterans each with a head phone at his bedside will receive a running description of the battle

INDIANS START OFF UNDER NEW MANAGER WITH 4-2 VICTORY

Cleveland Gives O Neill Win Over Pale Hose Reds Rout Cubs, 3-1

BY ANDY CLARKE
Associated Press Sports Writer

Walter Johnson having doffed his managerial garb is retiring to his Maryland farm but there are some who predict he eventually may pilot a minor league club

For more than 20 years he baffled batters with a ball that came down the alley with velocity something akin to a bullet.

The American League bestowed on him its highest award the distinguished cross of baseball a maltese cross studded with 20 diamonds

Then he became a manager

After a long illness he took over the reins of the Newark Bears in the International league In 1928 he went back to pilot the senators the team with which he had spent his big league tenure

In 1932 he was ousted from that position and took the helm at Cleveland With the years the cheers turned to jeers He wanted to buy the Oakland club in the Pacific Coast League in 1924 making a cash offer of $385 000

Many a ball player has slipped into some comparatively quiet town after his arm lost its whip or his batting eye dimmed with the years and managed a minor league team Four of them are in the Southern Association Clyde Milan and Doc Prothro formerly with Washington Fred Hoffman who once caught for the Yankees and Eddie Moore who was with the Cleveland Indians in 1934

The Cleveland Indians got off to a good start under their new manager Steve O Neill yesterday playing heads up baseball to defeat the Chicago White Sox, 4-2.

Always Another Side

It is with a feeling of shame that men who put human rights above property rights admit there is such a thing as tax exempt government bonds. The unfairness of the thing is palpable. A few fortunate wealthy persons are drawing incomes which can't be taxed.

There's always another side. When President Roosevelt showed his horror of tax exempt bonds last week someone inconveniently observed that the new dealers themselves were not averse to using them. But what are their uses?

Briefly they represent a financial device for the convenience of government. By bestowing the attraction of tax exemption on its securities government is able to dispose of low interest bearing bonds. Investors who lot government have their money at 3 per cent when they could demand and get 4 per cent for taxable bonds really are paying a 1 per cent tax in the form of reduced interest for the privilege of owning a tax exempt bond.

Governments have encouraged the practice. They are still encouraging the practice and the Roosevelt administration is no different from its predecessors in this respect. It is important furthermore that the federal government needs no constitutional amendment to permit it to tax its own bonds. It can act whenever it decides it wants to act. There's nothing to interfere except its own convenience.

The whole thing resembles the perennial issue of tipping. No one can be forced to tip but nearly everyone continues to tip for the plain reason it is an unsatisfactory means of getting satisfaction. Rant and rave as they will about tax exempt bonds politicians with problems of public finance to solve are the ones most interested in issuing them.

Heroine for This Week

Those columns occasionally designate certain persons as being worthy of special attention due to some unusual service. The heroine for this week will be Carrie Newton.

She is 55 years old and lives in Colorado Springs. Her job—bill collecting—causes her to pay a good deal of attention to "No Parking" signs.

The other day being more than ordinarily irritated with the almost hopeless task of finding a place to park her automobile she tied a "No Parking" standard to her car and dragged it about the streets.

She was arrested and charged with malicious mischief. In the meantime she broke windows and made it plain she intends to bedevil the police into making a martyr of her so she can take a case to the supreme court and find out once and for all whether or not an ordinary motorist can be chased out of a taxicab zone or a loading entrance.

So there's really less of the impulsive heroine in Mrs. Newton than one might think at a glance. Yet for anyone who yields to desire and admits he's fighting mad because there apparently isn't a parking space left in town we can't withhold a word or two of admiration—or maybe of envy.

Indication

Political observers have their wits and pencils sharpened to analyze Rhode Island's by election today. A United States representative is to be chosen in one of the state's two congressional districts.

Both candidates are strong. Charles F. Risk former district court judge and a war veterans leader is running for the Republican party. The Democrats' candidate is Antonio Prince state treasurer and possessor of a brilliant war record.

The by election was made necessary by appointment of Francis B. Condon the Democratic incumbent to the state supreme court. With only two representatives Rhode Island naturally is anxious to fill the vacancy.

In 1932 when Franklin D. Roosevelt carried Rhode Island by more than 30,000 votes Mr. Condon won in the first district 70,429 to 5[illegible]. The district contains several important industrial centers which usually go Democratic.

Apparently Republicans though claiming a chance to win the election would be satisfied with a good showing. Anything in view of the district's record would cause Democrats to fear that speculation on their party's fading attraction at the polls was based on something more solid than the wishful thinking of their Republican brethren. For one day, Rhode Island is destined [illegible] of Mare [illegible] as [illegible] as prep [illegible]

More Talk

It is [illegible] Italy [illegible] Ethiopia [illegible] ar h ha [illegible] of the [illegible] to [illegible] can deter [illegible] from an [illegible] for preparation than Ethiopia which has less to prepare.

It's not likely talk can stop the threatened war. Too much has gone into the making of it, talk of the kind that's hard to retract. At the close of last week Premier Mussolini was promising Italians he would march with them against the Ethiopians, which apparently was a retort to Emperor Haile Selassie's assertion he would lead his army in person and that he didn't expect to meet Premier Mussolini on the battlefield.

On the whole it seems easier to talk two countries into war than to talk them out of it.

"As Many as Possible"

President Roosevelt makes a sensible concession to reality by bringing work relief plans down out of the rosy mists of theory. Direct relief is not going to be cut off entirely at any certain time the President promises. Wherever necessary direct relief will be continued indefinitely.

Unfortunately the impression had got abroad that the government intended to cut off all direct relief about Nov. 1. The theory behind the threat was that by Nov. 1 all persons on relief rolls would have been cared for either by a job or through local relief. Because the theory wasn't plausible the threat seemed ill considered.

President Roosevelt apparently sees the threat in that light. The relief program must be kept elastic. Jobs as the government learned from PWA cannot be made to materialize overnight. Resumption of local responsibility for the welfare of unemployable persons furthermore is not a matter to be taken lightly.

Mr. Roosevelt declares the government's policy from the start has been to give work relief to as many as possible of the 3,500,000 employable persons on relief rolls. He believes if 90 or 95 per cent of them can be taken off direct relief and given jobs on public projects the attempt to institute an acceptable relief policy will be successful. On the whole the President's expectations will seem high. If the government can accomplish as little as 75 per cent of what it has said it will do it will surpass the average of expectation.

A Hole in It.

It is reported one of the midget coins the federal government plans to put into circulation for convenience in paying sales taxes has a hole in it. That is heartening news if you look at it one way.

Perhaps it will be feasible to carry the coins on a ring passed through the holes or on a string. They can be used for buttons in a pinch and for ornaments. With a string attached they will make safe playthings for baby.

One economist predicts issuance of currency worth less than a penny will have a tendency to cheapen the nation. The midget money will find its way into church collection plates for instance. It will be difficult to prevent tradesmen from marking down small articles to fractional prices. The small money will impose a tough problem of regulation.

Among cheers for the idea there are few bellows of praise from taxmakers. Their sensibilities never were wounded by the palpable unfairness of collecting a penny for a fraction of a penny tax. It's plain as day they are going to lose money. In fact they might admit if pressed for an opinion that the biggest hole in the new money is the hole in the idea behind it.

Charles Francis Coe first to exploit the gangster fictionally is reputedly the most expert trader among the literati. When he begins bargaining with editors they take a clutch on their bridge work. He not only gets the highest prices for short stories and serials but also for after dinner speeches and radio broadcasts. He is known to intimates as "Socker" a nickname out of his amateur ring experiences.

George Randolph Chester was another novelist who was always able to take care of himself swapping plots for pelf. Some of his Wallingford tales got the biggest prices ever paid up to that time. And they ran longer than any series. The late Arthur Somers Roche was known as much for his ability in the sanctums, have it to more editors as he was for mystery plots. Kathleen Norris in the feminine division has bracketed herself at the top. Katherine Brush is a shrewd business lady too.

Next to Poe no crack writer ever salvaged so little for his efforts as O. Henry. Often his own fault. Form of a desperation to keep going. Many times he would hawk a short story idea for what was then a fair price $50. But after completing he would take it around in person and agree to turn it over for a cashier's demand for $30 instead of waiting for the check through routine channels.

Old and gone Ainslee's was long a serene port in a writing storm. Scribblers could take a story there or a poem have it read while they waited in an anteroom. If it clicked an order on the cashier was sent out. Necessity has often inspired some fine efforts and in this way the magazine got excellent material at extremely low rates. There is a legend that Harris Merton Lyon receiving a sharp note from his landlord in the old Chelsea district sat down and dashed off one of his short stories for Ainslee's in three hours, paid the rent and had enough for a blowout for a group of cronies at Moquin's.

Behind The News In
Washington And Wall Street

BY PAUL MALLON

WASHINGTON Aug 6 — The calsomine job which Secretary Ickes recently ordered in his Interior PWA departments is not as thick as it seemed. The grain of old wood is already beginning to show through.

For instance the appointment of Edgar Puryear as PWA personnel man a few days ago was loudly hailed as the rosy dawn of a new patronage era.

Mr. Puryear was formerly secretary to the late Senator Cutting. *His appointment was supposed* to end the latent warfare between Mr. Ickes and Democratic politicos which has been causing a major disturbance within the administration for two years. The Burlew independent PWA patronage dynasty was supposed to be superseded.

But what the Democratic politicos have found out is that Mr. Puryear is not handling out the important jobs for congressmen. Some say his jurisdiction is limited to those paying less than $2,500 a year. At any rate a confidential order has gone out that on all major posts he must consult ex Czar of Personnel Burlew—and Mr. Ickes.

Thus instead of caviar the congressmen are getting peanuts.

Pals

The stories that Mr. Ickes has decided to play ball with Democratic congressmen and Postmaster General Farley is however half true. At least he is making an effort for the first time. How great an effort is not yet publicly known but if you investigate closely you will probably find that one of Farley's closest henchmen is now on the Ickes pay roll.

As a result you may expect Mr. Ickes to get more credit publicly hereafter for the work he has been doing.

Note—Honestly (say Mr. Ickes' friends) he never investigated Farley in connection with those PWA contracts mentioned by Huey Long.

Repulse

The President's close participation in the drive to upset the house majority against him on the utility bill was kept under cover but he advised and agreed to each step of the way.

For instance when the advertising man Cramer testified about the health whispering campaign House Chairman Rayburn leaped to the telephone and called the White House. Immediately thereafter Mr. Rayburn announced he would seek another test on the issue that day in the house.

The White House was surprised and chagrined at the result. It found 5[illegible] per cent of the house voting against the President. A month earlier the teller vote showed 59 per cent against. It was far more of a personal repulse than the public record indicates.

Shady

All the usual reasons are being mentioned for the current obduracy of the house. The range upward from the low hints by lobby committeemen that house members were bought.

An old time lobbyist (not connected with the utilities) has offered a logical reason. He won considerable money betting 2 to 3 that the house would not change. His long experience in handling state legislatures proved to him that legislators look on a changed vote as a confession of error which must be avoided at all costs.

A wrong stand is easier to defend politically than a public admission of a mistake.

Coalition

Certain [illegible] personages interested in [illegible] a coalition [illegible] against President Roosevelt are supposed to have [illegible] Gen. Johnson. [illegible] The [illegible] though he might be interested in leading it he declined. [illegible] his main reason was that he is a Democrat who [illegible] cheers occasionally for F. D. R., although differing about many new deal policies. Also he suspects the move may prove to be impractical politically.

Most Republicans here would like to see an independent conservative Democratic ticket enter the field next year but not through the Republican national convention.

Convention City

Gen. Farley's right handers have already passed out some private unofficial assurances that the Democratic convention will be held *next year in Atlantic City*. The main reason is the seashore resort is raising some big money to get it. Also the Democratic bosses figure that they can afford to disregard the usual geographical requirements. They expect to control the convention completely no matter where it is held.

BY JAMES McMULLIN

NEW YORK Aug 6—New York insiders understand that the administration is determined to keep the cost of credit low for a long time to come. This will apply to corporate as well as government borrowing. Informed sources agree that it is easily within the treasury's power to maintain cheap money rates—and they figure this is a *far more important* part of the new deal philosophy than is generally realized.

The underlying idea is that savings on public and private debt service are somehow to be translated into additional wages—although the mechanism to assure this result has not yet been worked out.

Such a program has wide implications. *For one thing it penalizes* investors in bonds and other forms of indebtedness. If they want the safety of liens they will have to accept smaller returns than in the past. A lot of them will presumably shift over into equities—stocks—and that is said to be part of the plan also. New dealers aim to give those who share the equity risk of an enterprise a break at the expense of those who are merely mortgagees.

Deep

Financial experts call this principle a much more significant wealth sharing project than the tax program. Money is taken away from creditors by lowering their income on their investments—just as surely as if it were taxed away. It is given instead either to workers in wages or to stockholders in profits. The aggregate redistribution if the cheap money policy is made permanent—will be enormous.

The subtlety of the plan tends to make it more effective. Few people recognize what's going on—and fewer still object. Industry certainly doesn't. Why should it demur at paying less interest? Wage earners have no kick coming. Only bondholders are taking it on the chin—and they are not yet generally aware that progressively cheaper refunding is the outcome of a deliberate policy.

Wise sources comment that stockholders needn't feel too encouraged by this development. Unless corporations grant the lion's share of their gains from cheaper borrowing to labor—which they won't—the New Deal tax whip is due to bite deep.

Fall

New York learns that Premier Laval of France has ideas of his own about adjusting the price level. He doesn't intend to fool around with money as a measure if he can help it. Instead he plans to correct maladjustment by governmental decree. [illegible] on high—order [illegible] down by edict.

M. Laval [illegible] the comm[illegible] that a [illegible] economic earthquake. [illegible] has proposed the best of copying [illegible] is immaterial [illegible] the [illegible] price—that [illegible] the price of gold in terms of domestic currency.

Most financial men ridicule the proposition that a price level can be controlled by manipulation of gold value. But they rate Laval's scheme even more fantastic. They claim he would have to be Mussolini, Hitler, Stalin and the Emperor of Japan rolled into one to make it work—and expect him to ride to a heavy fall if he tries to apply it seriously.

Forget

The major farm organizations continue to campaign strenuously with the committee for the national for the Goldsborough amendment to the banking bill which would direct the federal reserve board to stabilize the price level. But for once their vaunted political potency must be in drydock. Neither the administration nor the congressional conferees on the bank measure—obviously excepting Mr. Goldsborough himself—act at all impressed.

Astute observers predict that the farm groups will forget their pet monetary medicine in a hurry if the AAA amendments produce expected results. If prices will only go up agricultural interests aren't likely to bother much about which particular formula did the trick.

Silence

You may have noticed that the Association of American Railways—supposed to act as spokesman for all roads—has made no comment whatever on the passenger fare cut argument. The official reason for this reticence is that the rate problem varies in different sections of the country and therefore no national policy is possible.

Informed sources say this is true enough but add that perhaps an even more cogent reason is Mr. J. J. Pelley's desire to avoid setting himself up as a target for snipers. Anything he said would be wrong to a lot of railroad men. A good diplomat knows the value of silence.

Cheer

Three items in last week's news were full of cheer to right wingers.

First was the house's second K. O. of the holding company death sentence. That spikes the New Deal plan to switch house conferees in order to cram this provision through. It looks more and more like an unbreakable deadlock which will end in no utility bill at all.

Second was Senator Pat Harrison's pique at Secretary Morgenthau because the latter refused to make recommendations on the tax program. Harrison had been one of the most faithful White House lieutenants (often it is said against his personal inclinations). What could be sweeter than to have the boss fighting among themselves?

Third was the soak-the-rich tax measure offered by the house committee. This is expected to help the educational process whereby the public will at last be convinced that other people besides the wealthy must be taxed if Uncle Sam is ever to pay his bills.

Sidelights

$561,000,000 in corporate securities were offered for sale in the first six months of 1935. That sound swell—but only a paltry $310,000,000 represented new capital.

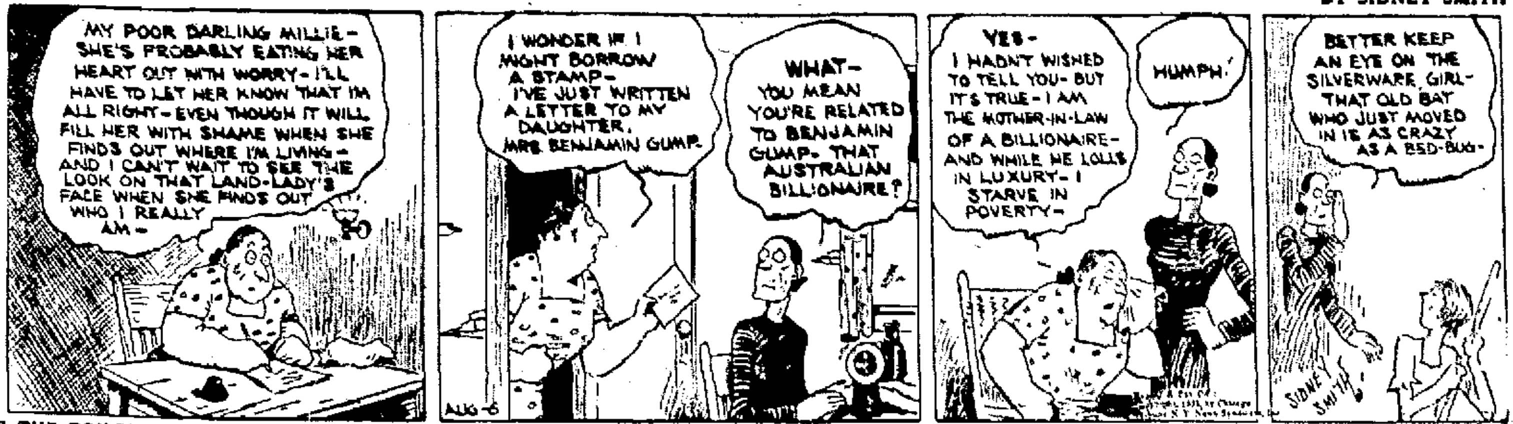
THE GUMPS

BY SIDNEY SMITH



MY POOR DARLING MILLIE—SHE'S PROBABLY EATING HER HEART OUT WITH WORRY—I'LL HAVE TO LET HER KNOW THAT I'M ALL RIGHT—EVEN THOUGH IT WILL FILL HER WITH SHAME WHEN SHE FINDS OUT WHERE I'M LIVING—AND I CAN'T WAIT TO SEE THE LOOK ON THAT LAND-LADY'S FACE WHEN SHE FINDS OUT WHO I REALLY AM—
I WONDER IF I MIGHT BORROW A STAMP—I'VE JUST WRITTEN A LETTER TO MY DAUGHTER, MRS BENJAMIN GUMP.
WHAT—YOU MEAN YOU'RE RELATED TO BENJAMIN GUMP—THAT AUSTRALIAN BILLIONAIRE?
AUG-6
YES—I HADN'T WISHED TO TELL YOU—BUT IT'S TRUE—I AM THE MOTHER-IN-LAW OF A BILLIONAIRE—AND WHILE HE LOLLS IN LUXURY—I STARVE IN POVERTY—
HUMPH!
BETTER KEEP AN EYE ON THE SILVERWARE, GIRL—THAT OLD BAT WHO JUST MOVED IN IS AS CRAZY AS A BED-BUG—
SIDNEY SMITH

HELLO, SOPHIE! FORGIVE ME FOR BEING LATE!
I'M SO GLAD TO SEE YOU, SALLY—COME RIGHT IN—HERMAN IS HERE—
SALLY!

Morrow County Relief Board's Demand for $1 800 for Soldiers Still Pending

Special to The Star

MT GILEAD Aug 6—After hearing the argument of both sides of the case of the Morrow county soldiers relief commission against the county commissioners Judge P H Wieland has reserved his decision in the suit in which the relief commission seeks a mandamus order compelling the county commissioners to add $1 800 to the $2 200 they appropriated for the use of the relief commission in caring for families of veterans this year

It is the contention of the relief commission that the county authorities must under the terms of a section of the general code approve any amount they set up as necessary for the year so long as the amount is not more than a sum equal to a levy of one half mill on the real estate duplicate of the county

WHEAT PRICES DROP MORE THAN 2 CENTS

Traders Ignore Reports of Serious Crop Damage Due to Rust

By The Associated Press

CHICAGO Aug 6—Wheat prices broke more than two cents from early highs today as the market largely ignored authoritative estimates of serious crop losses in parts of the domestic northwest and in Canada as a result of rust infection.

Increased liquidation some of which was attributed to profit taking and selling to stop losses accompanied weakness in corn with crop conditions reported favorable. Some selling was associated with gossip concerning possible importation of Canadian wheat.

VOTERS POLLED IN TWO STATES

Mississippi and Rhode Island Balloting, Kentucky Primary Close Race

By The Associated Press

Mississippi balloted today in a state office Democratic primary as Rhode Island voters filed a congressional vacancy in an election generally regarded as a new deal test.

Kentucky counted last Saturday's votes which indicated a necessity for a run off primary to decide its gubernatorial contest between A B Chandler and Thomas S Rhea. The latter was leading with margin too small to permit claim to the nomination. Three other candidates were eliminated.

Voters of the first congressional district in Rhode Island lined up to choose between Democratic Candidate Antonio Prince [illegible] back the new deal and Republican Candidate Charles F Risk [illegible] repudiate the Roosevelt administration's acts.

Five Mississippi gubernatorial candidates awaited the popular verdict after disputing among themselves as to which was being backed by Sen Huey Long of Louisiana. Nomination is tantamount to election.

Virginia nominated state senators delegates and county officers with the campaign concentrated on local issues.

30 Day Dispute Seen in Kentucky

By The Associated Press

LOUISVILLE Ky Aug 6 Kentucky's state-wide primary headed into 30 days more of factional fighting among the Democrats as Republicans today apparently had approved their organization slate by substantial majorities.

The state primary law calls for a run off the first Saturday in September in contests where one candidate does not receive a majority of the first ballot.

Thomas S Rhea backed by the organization of Gov Ruby Laffoon held a lead of 4,516 votes in the Democratic governor's race over Lieut Gov A B (Happy) Chandler anti administration anti sales tax candidate as returns from Saturday's voting continued to come in early today.

Rhea had 78,079 Chandler 73,563 in 3,390 of 4,210 precincts. Frederick A Wallis with 18,717 State Treasurer Elam Huddleston with 5,136 and Attorney General Bailey P Wootton with 950 were considered out of the running.

In the Republican race Circuit Judge King Swope of Lexington in reports from 3,002 precincts had 35,091 against 4,008 for Circuit Judge Sam Hurst of Beattyville and 3,039 for County Judge D M Bingham of Pineville. He seemed assured the nomination for governor without the necessity of a run off primary.

J J Kavanagh of Louisville apparently was assured Republican nomination for lieutenant governor but in the Democratic race Keen Johnson Richmond publisher faced a probable run off with State Senator J E Wise of Elizabethtown.

rookie was sent in to pitch and turned in a masterful job holding the Sox to six hits. Shortstop Mike Appling who drew a walk in the fifth was the first Chicagoan to get on the paths.

O'Neill resumed his usual position as coach at third place. Once when the White Sox complained that Winegarner was not keeping his foot on the rubber as he pitched O'Neill settled the dispute in true managerial fashion.

The Yankees walloped the Red Sox 10-2 and Washington turned back the Athletics 10-7 in other American League games.

In the National League the Giants beat Brooklyn 5-4 Philadelphia beat the Boston Braves 9-1 and Cincinnati beat the Cubs 3-1.

SPROUTING OF WHEAT LABELED "UNUSUAL"

Specialist Doubts Much Damage Will Be Done Despite Heavy Rain

By The Associated Press

COLUMBUS O Aug 6 Earl Jones extension specialist in agronomy at Ohio State university described today as quite unusual reports that shocked wheat is sprouting in certain sections

Despite the abundance of rainfall however Jones said he did not believe the condition to be very widespread. He said that he had not heard of any sprouting

About 10 days of continuous dampness are necessary to spoil wheat he said. Oats will spoil in about six days

Commenting on reports that considerable wheat has gone unharvested because of wet weather Jones said it could stand for about two weeks without suffering much damage. The possible damage he said lies in it being blown down or shattering

Some farmers whose threshing had been delayed by damp weather helped the wheat dry quickly by scattering the shocks the specialist said

"Much damage has been caused to oats by wind and rain in northern Ohio he said. Fields of the grain lay on the ground and can be harvested only at considerable expense if ever
